

NEDonBoard is the Professional Body for non-executive directors and board members in the UK. The board is the highest authority in every institution and we believe exceptional individuals and proper governance ensure organisations progress and benefit both shareholders as well as society.

As the Professional Body for non-executive directors, our mission is to shape the non-executive and board landscape to improve how businesses and organisations, whether public or private, are run. We inspire, connect and inform non-executive directors and board members and uphold the highest standards of professionalism, governance and ethics. NEDonBoard believes every board member is an agent of progress for the benefit of businesses' and organisations' stakeholders and the wider society.

We welcome the FRC consultation on the 'Wates Corporate Governance Principles for Large Private Companies'. Our recommendation would be to increase the emphasis placed upon the duties and responsibilities of the Independent and Non-Executive Directors, following their appointment.

As the Professional Body for these community, we offer to assist the FRC in the evolution of these standards.

Jean-Philippe Perraud & Steven Windmill
On behalf of NEDonBoard

Jean-Philippe Perraud
Director General
NEDonBoard, 34b York Way, King Cross, London, N1 9AB
