

Flexible working opportunities for recently retired Audit Partners

Audit Inspection Unit (AIU)

London - Competitive remuneration package

The Audit Inspection Unit (AIU) is part of the Professional Oversight Board and is responsible for monitoring the audits of all listed and other major public interest entities.

We are interested in talking to recently retired Audit Partners from larger audit firms about opportunities for flexible working in our inspection teams. Team Inspectors participate in inspections of major UK audit firms and review the firms' processes and procedures and audits of listed and major public interest entities. The role requires a thorough knowledge of the auditing of UK listed companies, excellent communication skills and the confidence and ability to engage with and, where appropriate, challenge other senior partners on key audit judgements.

Our team already includes ex-partners who work between 50 and 80% of the year, enabling them to balance this challenging and stimulating role with plenty of time for their personal interests.

If you are interested in discussing these opportunities, please call Andrew Jones, Director of AIU, on 020 7492 2300 or email him on a.jones@frc-pob.org.uk.

*The Audit Inspection Unit and the Professional Oversight Board are part of the **Financial Reporting Council (FRC)**, the UK's independent regulator responsible for promoting confidence in corporate reporting and governance.*

The FRC values diversity in all appointments and welcomes applicants of any ages or from any background. Applicants from suitably experienced members of under represented minority groups will be particularly welcomed.
