

## FAQs

### **Q. How can I get involved?**

Please get involved by signing up to one of the webinars or roundtables listed on this page. We will also be adding podcasts discussing some of the key themes so please look out for them on the FRC website and across social media.

We know many of our stakeholders are time-poor. We've created the webinar/roundtable themes to offer you flexible options to attend the sessions which are of most relevance to you and make the most effective use of your time. If you don't see a topic you are interested in discussing or if you have any questions, please email [StakeholderEngagement@frc.org.uk](mailto:StakeholderEngagement@frc.org.uk).

### **Q. This is BEIS's consultation. Should I engage with BEIS or with the FRC?**

This is BEIS's consultation and so consultation response submissions should be sent to BEIS following the instructions set out in the consultation document and by the consultation end date.

The FRC will be hosting a series of webinars and roundtables for interested stakeholders to provide further insight on key aspects of the government's consultation as well as hear your views and comments on the government's proposals. These will be recorded and we will share all the recordings with BEIS and so you do not need to make the same points twice during the engagement period.

### **Q. Does the FRC support the consultation document?**

We welcome the publication of the consultation document as the next step in the process of reform, which is so important to ensure we continue to deliver trust in the quality of corporate governance, corporate reporting and audit and support economic recovery.

As an Arm's Length Body of BEIS, the FRC (and ARGAs) will be responsible for the operational delivery of Government policy. We will work closely with Government and other regulators to ensure that the proposals, once finalised, are implemented in a proportionate and effective manner.
